INTER-SECTORAL COORDINATION IN SCHOOL-BASED NUTRITION PROMOTION (SBNP) IN INDONESIA

Inter-sectoral coordination is pivotal because many sectors are involved in school-based nutrition promotion in Indonesia. These sectors are the central government, local government, community-based organizations and the private sectors.

In the National Action Plan (NAP) on the Health of School Children and Adolescent 2017-2019 an inter-sector working groups and its coordinator have been developed.

Coordinator of Divisions for the implementation of NAP on the health of school children and adolescent	Working Group (WG)	Coordinator
	Sub WG for increasing knowledge and skills of school-age children and adolescents towards the 8 (eight) health issues	Ministry of Education and Culture/Ministry of Religion
	Sub WG for strengthening access and quality of comprehensive health services for school-age children and adolescents	Ministry of Health
	Sub WG for strengthening the supporting environment	Ministry of Women Empowerment and Child Protection
	Sub WG for increasing the provision of strategic information	Ministry of Communication and Informatics
	Sub WG for improving meaningful involvement of school-age children and adolescents	Ministry of Youth and Sports Affairs

Example of Inter-sectoral Program for School Children and Adolescent in Indonesia
